- ★ Simple seven pin mechanism
- ★ Patented design for key security
- ★ Peterborough based key control
- ★ Keys same day
- ★ Extra cylinders within 48 hours
- ★ Locks doors, cabinets, padlocks etc
- ★ For external and internal use

The Mul-T-Lock Integrator® is the next-generation development of the standard seven pin Garrison system and provides a higher level of tamper-resistant security for a wide variety of locking applications. The Integrator comprises a unique, precision seven pin tumbler mechanism. Special 'launcher' pins are inserted into the plug chamber of the cylinder to complete the system's pin tumbler security mechanism.

The special cuts on Integrator keys are available in three different configurations: Internal, External and Twin cut. This enables a wide variety of keying options and a flexible master-keying hierarchy for different locking products and environments. The highly robust, tamper-proof key and cylinder system can be keyed alike, keyed to differ or master keyed according to preference.

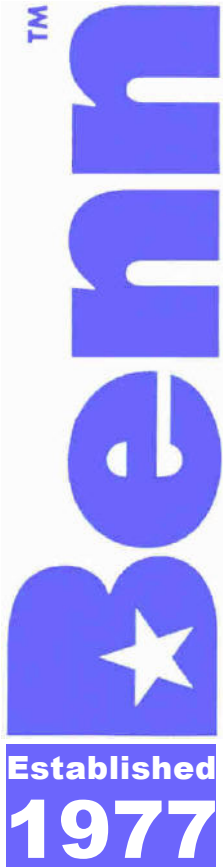

Additional key combination cuts on the Integrator key blank can be made. The Mul-T-Lock Integrator dealer agreement assures that duplicate keys will only be made by authorised Mul-T-Lock dealers, subject to the presentation of the coded Key Registration Card by the registered owner. We also make special arrangements for large system owners when extra keys are required.

The Integrator system is ideal for environments that require a comprehensive, cost-effective locking solution without compromising on key security standards for more sensitive areas.

When combining the two systems together to secure a building or facility, the Integrator key and cylinder can be used as a first line of defence on the external perimeter of doors. The seven pin cylinders, which can be opened by Integrator keys, can also be installed in internal doors and padlocks.

### Why buy this product?

- ★ Secure key duplication
- ★ Flexible design
- ★ Rapid local key provision
- ★ Low price

- ★ Locks
- ★ Safes
- ★ Keys
- ★ Grilles
- ★ Shutters
