

Mul T Lock Interactive Secure Key System

Mul-T-Lock

Interactive, the versatile lock system

Master keyed locks provide **you** with control over who goes where and who can get duplicate keys. With master keying all locks can be keyed differently and a single master key can over-ride and give access to all locks. You may decide some locks should be keyed the same – you choose – we build the system to **your** requirements.

The advantages of Mul T Lock:

- ★ For all types of door locks
- ★ Padlocks from small to large
- ★ Cabinet locks
- ★ Vehicle locks
- ★ Master keys
- ★ Suites made in Peterborough
- ★ Fast turnaround
- ★ Keys same day
- ★ Additional cylinders 48 hours
- ★ Unique key registration

The Mul-T-Lock patented interactive key and cylinder system raises the level of technology in high security locking to new heights.

The interactive key system incorporates a high precision moving insert which interacts with a spring loaded pin in the cylinder plug to produce a 'virtual combination' only when the key is inserted in the lock.

The patented Mul-T-Lock key design provides you with increased control over key blanks, discouraging unauthorised key cutting. Authorised keys can however, be made for you on site in Peterborough. All assembly of cylinders takes place at our premises and we have control of the making of new cylinders. You have the availability of our 24 hour turn-around for new keys and small additions.

Master suites made within 48 hours
