

Multi-point lock for access control

This electrically operated door lock is designed for use with all controlled entry systems. Either remote controlled from a telephone handset or by card, token or biometric reader on the outside of the building.

For security purposes the upper and lower latches are automatically deadlocked every time the door closes.

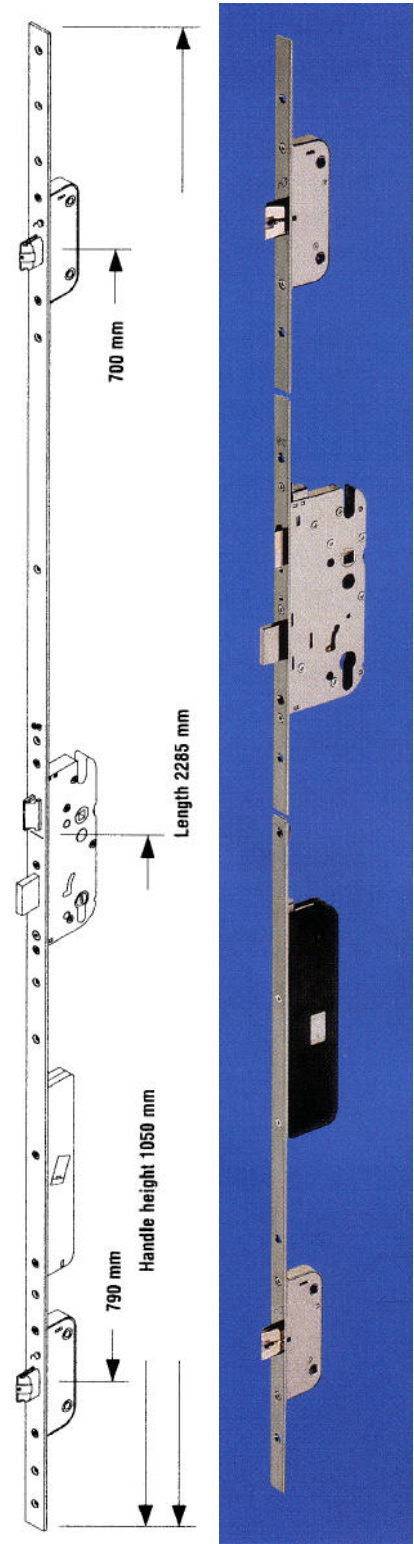

Safe and easy egress at all times via the inside door handle.

- ★ Low voltage electric operation
- ★ Replaces standard PVCu door locks
- ★ Uses existing door furniture
- ★ Automatic locking
- ★ For use with telephone door entry systems
- ★ Standard key over-ride
- ★ Operation on the inside by door handle
