Garalok Supplementary garage door lock

Improves security on your standard up and over door

- ★ Robust steel shoot bolt
- ★ Bolt throws 79mm
- ★ Key lockable from inside or out
- ★ Fits most type of garage door
- ★ Locks for door thickness 35mm to 67mm
- ★ Pairs come keyed alike

The Garalok incorporates a 190mm by 18mm square (7½" x ¾") robust steel bolt operated by a special cylinder. The bolt extends 79mm (3") and dead locks when the key is removed.

Mounted on a garage door, the deadbolt can be fitted as a pair on each side (recommended for the highest security) or singly in the centre of the door, it locks down into a socket we fit in the concrete floor. The key cylinder is operable from inside or outside.

Garalok 50 - locking bolt for fixing to bottom of metal and panelled up & over doors from 35 to 47mm thick.

Garalok 50W - for side or bottom fitting to solid timber garage doors, up & over or hinged from 35mm to 47mm thick.
