

Magnum 6000 Euro grade 0

Magnum 6000 Insurance Grade 0

The Magnum 6000 safes are designed mainly for home use but are also suitable for office use. These safes are probably the most popular safes we sell at the moment. They are sensibly sized for modern users, well constructed and finished.

Their relatively low weight allows a first floor installation without extra costs. They must however, be securely bolted to the wall and/or floor.

- ★ Locks

Benefits of the electronic digital lock

The Magnum Electronic incorporates the latest electronic techniques to provide an audit of openings and users precisely timed and dated. The audit trail can show the last 1,000 operations. The digital lock can also be programmed to require more than one person to enter their code thus providing dual (or triple) operation for added internal security.

Model	External mm	Internal mm	Weight	Insurance
24K/24NE	340x430x390	250x348x294	43kg	£6,000
26K/26NE	530x430x390	440x348x294	60kg	£6,000 (£60,000 for valuables)
