

Keysecure Valiant range of underfloor safes

THE VALIANT - a range of square lift-out-door underfloor safes being able to offer protection against larger bulkier items such as paper files, MOT stamps, jewellery boxes, etc. Strength and security with flexibility.

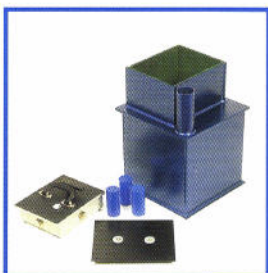

4000 DOOR

VALIANT 4000 - The Valiant square door (200mm x 246) offers great flexibility of use. Operated by a 7 lever anti-pick safe lock with key retention. A turn handle throws two 25mm diameter bolts which lock directly under the top plate and there is also two 18mm fixed bolts. Further protection includes drill resistant plate and passive relocking devices. The overall thickness of the door is 72mm.

6000 DOOR

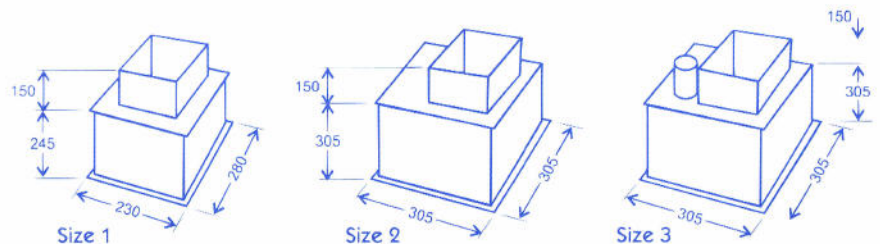

VALIANT EXTRA 6000 - When a higher degree of security is required the Valiant 6000 door has increased security - ideal for MOT requirements. Two passive relocking devices and an extra 25mm diameter bolt is thrown by the turn handle giving excellent all round protection.

VALIANT SIZE 3

VALIANT ABP 10000 - Where the highest degree of protection is required. In addition to the above specification the Valiant 10000 door has 4mm pure copper plate laminated throughout the door to withstand attack against oxyacetylene cutting equipment. Overall thickness of door 85mm.

BODY - High quality electrically welded steel body with a 10mm top plate. The all steel neck 8mm thick is 150mm high giving added protection. The interior is flock lined for added protection.
